

# Hobart Occupational Medicine

is pleased to present an information session

## *“WHAT HAPPENED TO RSI?”*

*Upper limb pain in the context of computer work –  
an occupational physician’s 30-year perspective.*

### Dr Peter Sharman

MBBS, FAFOEM – Consultant Occupational Physician &  
Director – Hobart Occupational Medicine

Dr Sharman provides his perspective on these disorders from the “RSI” epidemic as Hydro-Electric Commission’s doctor in the 1980’s through to the current time with emphasis on diagnostic challenges, legal decisions and the outcome of his recent literature review looking at causation.

The seminar is of interest to lawyers, doctors, physiotherapists, rehabilitation providers, insurers, workers and employers

**1230 - 1400 Wednesday 09 October 2019**

**Venue- ACT Law Society - Level 4, 1 Farrell Place, Canberra City ACT 2601**
